

Certificate of Analysis

Name of the Product : Solubilizer E-531
Batch Number : 2026Jan05-002

Specifications:

Si No.	Parameter	Results
1	Physical Appearance	Colourless Translucent Viscous Liquid
2	Odour Profile	Faint Pungent, Acetate Odour
3	Solubilization Potential with 5% w/w Benzyl Acetate Aq Solution*	2 to 2.25 factors at 27 deg Celsius

* Ratio of Benzyl Acetate (Lanxess, Purity >99.5%) to Solubilizer (E531) at which the aqueous solution becomes clear as observed at time 5 minutes & 3 hours.

** Distilled Water is always added to the premix of raw material & solubilizer
